MONEY, STOCKS AND BONDS.

Atchison and Sugar Display Unexpected Strength-The Market Generally Weak. NEW YORK, Nov. 8 .- Money on call was easy, ranging from 3 to 6 per cent., the last loan being made at 5, closing offered at 5 per cent.

Prime mercantile paper, 512@8 per cent. Sterling exchange quiet and weak at \$4.8012 for sixty-day bills, and \$4.8412 for

demand. The total sales of stocks were 355,761 shares, including the following: Atchison, 43,945; Canada Sonthern, 4,900; Delaware, Lackawanna & Western, 50,724; Denver, Texas & Fort Worth, 4,129, Hocking Valley, 8,822; Lake Shore, 3,700; Louisville & Nashville, 11,352; Missouri Pacific, 16,585; Northwestern, 5,010; New Jersey Central, 4,015; Reading, 41,550; St. Paul, 30,715; Richmond & West Point, 3,058; Union Pacific, 13,520.

The stock market, to-day, was irregular but generally weak, though there was little impression made upon prices outside of a few stocks which were the objects of special bear manipulation. There was a story from Philadelphia concerning a surplus capital reserved for the Reading Coal and Iron Company, out of which the losses of the present year would be taken, leaving edly improved here and abroad, and while all the railroad earnings to be applied to payment of interest upon the incomes. This, with the splendid support which the stock received, kept Reading up to and even slightly above the level of last evening's figures, and the attention of the ing's tigures, and the attention of the "bears" was given entirely to the other stocks of that group. Lackawanna was the greatest sufferer, and was closely followed by Jersey Central and Delaware & Hudson. The efforts of the "bears" were slackened off toward noon, and prices, left to themselves, rallied slowly, with special strength in Atchison and some of the specialties, while Sugar, which has received some support of late, was bought largely by the trading element, and scored a handsome advance. Toward the close there were rumors of a report from an exhandsome advance. Toward the close there were rumors of a report from an expert accountant to be published which would show a deficit for the year in St. Paul, instead of a surplus. With this the bear pressure was turned upon the grangers, and St. Paul led another downward movement, which, however, extended to all the others, though Rock Island was the only one upon which any imone upon which any impression was made, outside of St. Paul. Among the specialties Hocking Valley and Tennessee Coal were the leading strong features, and both were conspicuous for strength. The one really strong stock of the regular list was Atchison, which was taken freely upon rumors

active, and the business done reached \$1,946,000, out which St. Louis, Arkansas & Texas seconds figured for \$218,000, and the Chesapeake & Ohio fives for \$143,000.

TRADING AT CHICAGO.

Wheat Fluctuates Variously and Closes Higher-Corn Remains Unchanged.

CHICAGO, Nov. 8.-In wheat there was a rather dull dragging trade during most of the session, with fluctuations again confined within narrow limits. Influences were both favorable and unfavorable. European markets were dull, but export clearances were heavy. On the other hand, a proposition before the Warehouse Commissioners looking towards the lowering of grading is having some effect in the way of unsettling trade. What effect such a movement would have on the market is difficult to foresee, though operators lean to the belief that it would create lower prices. The market here opened dull and easy, and later became stronger, and just before the close prices were advanced to the outside range, or \$4c for December, and 5sc for May, closing 3sc higher than yesterday. In corn the feeling was easier on near months, while the distant deliveries were without special change. The market opened a shade better than the closing prices of yesterday, but under free offerings of November by shippers sold off 3sc, reacted a trifle and ruled steady and closed steady, the same as yesterday.

Oats offerings early were not large until, after an advance of 380 12c. a good many "long" oats came out, but all were taken and the price well maintained until the close. The mess pork market was somewhat unsettled early. There was some buying of November and prices advanced 25c, while other deliveries rallied 5@712c. Later the feeling was easier, and prices receded again and the market closed quiet. In lard a comparatively light trade was reported. The feeling was firm and prices were well supported. In short-rib sides a very light business was transacted, and there were no particular changes to note. The leading

DUN & CO.'S WEEKLY REVIEW. Business Continues to Steadily Improve—De-

cline of the Trust Shares. NEW YORK, Nov. 8 .- R. G. Dun & Co.' weekly review of trade says: The business outlook continues to heprove. All the news this week is favorable for the public. Even the decision adverse to the Sugar Trust, and the exposure and proposed rethe Bank of England rate is still held at 5 per cent., money is quoted in open market at 212 per cent. Most of the increase in payments comes from legitimate business. for speculation is still restricted, except in trust stocks. These began to rally, but were met with the decision adverse to the Sugar Trust, and the disclosure that over half a million had been lost for Cotton Oil stockholders in attempts to sustain the market. Other securities have been stronger since the election, the reported agreement about Western rates having a good effect, but the tone is not enthusiastic. Speculation in wheat was temporarily stimulated by an unofficial publication by Mr. Dodge, the government statistician, putting the probable yield at 485,000,000 bushels. Whether the paper had left his hands before the official returns indicating a larger acreage and yields were made up no one seems to have asked. But the lowest estimate would leave the supply for export much beyond the largest foreign demand in recent years, and the net result for the week has been a decline of 34c, with sales of only 10,000,000 bushels. Corn is 1sc stronger, and oats 34c, but pork is 50c and lard 12c lower. Oil has advanced 4c, with moderate trading, and coffee is unchanged. The merely nominal price of raw sugar has been made actual, the trust son, which was taken freely upon rumors of unexpected success in the reorganization scheme. The close was heavy at close to first prices for most of the list.

Railroad bonds were again moderately active, and the business done reached of improvement that wool has yielded active.

INDIANAPOLIS MARKETS. A Rainy Day Interfered Somewhat with Trade -Fluctuations in Values Few.

INDIANAPOLIS, Nov. S. In most departments trade was a little off to-day, probably owing to the heavy rain of the early part of the day. The trains of the morning brought in but few buyers. Mail orders, however, were fairly liberal. The dry goods men say that they have no room for complaint as regards their volume of business, or as to the stability of prices. The fact is that they are doing more than in any former year, and and delaine, 39 \$\pi 41c; coarse washed combing and delaine, 36 \$\pi 2 \pi 36c; Canada washed combing and delaine, 26 \$\pi 28c; Montana, 19 \$\pi 25c; territorial, 15 \$\pi 2 \pi 25c.

BOSTON, Nov. 8.—The demand for wool has been good, and there have been a number of local and delaine and delaine and delaine and delaine. 26 \$\pi 28c; Montana, 19 \$\pi 25c; territorial, 15 \$\pi 2 \pi 25c.

BOSTON, Nov. 8.—The demand for wool has been good, and there have been a number of local and the local

houses are all manned with young, active fellows, who profit on any mistakes made by the older and more experienced com-petitors, as most of the partners in the firms were once traveling salesmen. The produce market is fairly active. Eggs are firm. Butter, if choice, will sell quite readily, while poultry, on large receipts, rules easier. Game is in better request, rules easier. Game is in better request, rabbits excepted. Prices, however, are but little better. The flour market is more active and better prices are indicated, but to say that the market is in at all satisfactory position for the millers would be untrue. Wool is firm, but in this market but little is doing, the woolen-mills needing all the holdings which they now have, and dealers, aside from the mills, are turning their attention to other matters. The ing their attention to other matters. The hide market presents no new features calling for mention. Those who handle hides still complain that prices are too low, but such has been the cry for months past.

Offerings of cereals are light, and, as a consequence, firmer prices prevail. Bidding on 'Change to-day was quite spirited, track bids ranging as follows:
